PROFESSIONAL SUMMARY

Frontend Software Engineer with 2+ years of experience delivering production-grade web applications using React.js, Next.js, and TypeScript. Specialized in converting Figma designs into pixel-perfect, responsive UIs and optimizing frontend performance, improved Lighthouse scores by 25% through lazy loading, code splitting, and image optimization. Adept at integrating RESTful APIs, implementing SSR/SSG strategies for SEO, and building scalable component architectures for SaaS dashboards and e-commerce platforms.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, Tailwind CSS, SCSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, Firebase

Tools & Practices: Git, GitHub, Vercel, Figma, Lighthouse, Agile/Scrum, Responsive Design, Performance Optimization, SEO

PROFESSIONAL EXPERIENCE

Techrish Solutions

Solution Developer

2024 – Present

Kochi, Kerala

- Engineered scalable web solutions across 5+ production projects — including SaaS dashboards, e-commerce platforms, and CMS-driven applications — using React.js, Next.js, and Node.js.
- Boosted Lighthouse performance scores by ~25% across client projects by implementing lazy loading, image optimization, and code splitting strategies.
- Architected SSR and SSG workflows in Next.js that measurably enhanced SEO visibility and reduced initial page load times for 3+ client websites.
- Translated 100% of Figma UI/UX designs into pixel-perfect, cross-browser compatible interfaces using React.js, Tailwind CSS, and SCSS — reducing UI inconsistency feedback by eliminating revision cycles.
- Integrated RESTful APIs, JWT-based authentication flows, and dynamic backend services across 4+ projects, enabling real-time, data-driven user experiences.
- Delivered responsive UI improvements across multiple client products that reduced cross-device layout issues and improved mobile usability scores.
- Collaborated in Agile/Scrum sprints — contributing to sprint planning, debugging, and deployment support — helping maintain consistent on-time delivery across concurrent client projects.

PROJECTS

Analytics & Monitoring Dashboard

Tech Stack: Next.js, TypeScript, Node.js, Chart.js

- Built a real-time analytics dashboard from scratch using Next.js and Chart.js, enabling businesses to monitor KPIs and operational metrics through 5+ interactive visualization modules.
- Designed adaptive dashboard layouts with live API polling and dynamic data rendering pipelines, improving responsiveness and eliminating full page reloads during metric updates.

Full Stack E-Commerce Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a production-ready e-commerce platform featuring JWT-authenticated user accounts, shopping cart workflows, product management, and a complete checkout experience.

- Architected RESTful APIs with Node.js, Express.js, and MongoDB while implementing optimized product search, category filtering, and lazy-loaded UI components for improved browsing performance.

InkArt Studio – Portfolio Website

Tech Stack: Next.js, React.js, Node.js, MongoDB, Tailwind CSS

- Delivered a modern portfolio and booking platform for a tattoo studio, showcasing artist profiles, service pages, and design galleries through a visually rich, mobile-first interface.
- Implemented a custom appointment booking workflow integrated with MongoDB and ensured responsive, cross-browser compatible performance with zero reported layout issues post-launch.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

2020 – May 2024

University College of Engineering, Kerala

CERTIFICATIONS

- **React Development Internship** - *Verdant IT Solutions*
- **Full Stack Web Development Certification** - *Acmegrade*
- **Joy of Computing Using Python** – *NPTEL (Swayam)*
